

Remarks

The Examiner objected to the disclosure, specifically, page 2, line 17, which cited patent number 5,884,039, which the Examiner correctly pointed out as not concerning the subject matter at hand. The specification has been amended to now refer to the originally intended patent, U.S. Patent No. 5,844,039. A supplemental IDS has also been filed to disclose this patent, which is closely related to already disclosed U.S. Patent No. 5,739,210.

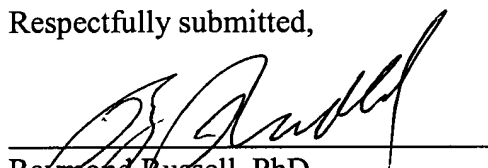

The Examiner has indicated that claim 63 is rejected, while claims 41-62, 64-65, and 75-77 are allowed. Claim 63 has been cancelled. Upon entry of the amendment, claims 41-62, 64-65 and 75-77 will be pending and in condition for allowance.

In view of the above remarks, it is submitted that the claims are in condition for allowance. Reconsideration and withdrawal of all rejections is respectfully requested.

The Commissioner is hereby authorized to charge any additional filing fees required to Deposit Account No. 061910.

Respectfully submitted,

Dated: 7/2/04
